

# **PROJECT PLANNING GUIDE**

### **BRING YOUR INSPIRATION TO LIFE**

Undertaking a design project - whether it's remodeling an exisiting space or starting from the ground up - can be an exciting, but somethings daunting task. Your new space will need to function well for your needs, accommodate your lifestyle and reflect your personality. Working with a professional designer is key. They will help you properly measure your space, determine the ideal room layout, provide budget advice and help you place your order. This easy-to-use planning guide will help get you started, and with the help of your designer, your dream room will soon be a reality.

| DESIRED PROJECT START | DATES            |   |                               |  |  |  |  |

## PERSONAL STYLE PREFERENCES

When it's time to consider what type of style, overall look and feel you'd like the room to reflect, this guide will help you and your designer get organized. Just answer the following questions on how you plan to use your space, provide construction details and measurements as directed, and you'll be ready to get started on the room of your dreams.

| BEST DESCRIPTION OF YOUR DESIRED STYLE   | DESCRIPTION OF EXISITING WALL CONSTRUCTION   |  |  |  |  |
|--|--|--|--|--|--|
| Please select the one that most closely represents your desired style. To learn more about these styles, see our <b>Products</b> at www.kitchenimage.com.  | Please check appropriate boxes.         Drywall       Paint       Plaster         Paneling       Wallpaper       Brick/Stone |  |  |  |  |

# HOW TO MEASURE YOUR SPACE

A rough drawing of your space is useful and will help us with the design process. See below for a sample floor plan. Once you have dimensions and a basic sketch of your space, transfer the information to the grid on the next page of this guide. Here are some helpful hints to get you started.

#### TIPS FOR MEASUREING YOUR SPACE

- Use a pencil to facilitate easy changes
- · Measure in inches only
- Be sure to note all fixtures and utilities (with dimensions)
- Also note all electrical outlets/switches (with dimensions)
- · Include location and size of windows and doors
- Note the size and location of existing appliances
- · Indicate which way doors swing and into what rooms
- Breaks in walls and obstructions should also be noted
- Denote ceiling height and indicate any transitions, soffits and/or vents

#### HOW TO MEASURE WINDOWS AND DOORS

Measurement A

Door 1 Door 2

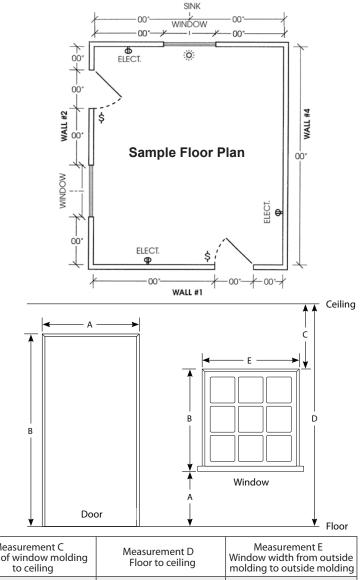

Door 3

Door 4

Width of door

Measure each door and window and record in the grids below. Measurements should be from the outside edges of the window/door - trim to trim. All dimensions should be in inches.

> Measurement B Height of door

WALL #3

|          | Measurement A<br>Floor to underside<br>of window sill | Measurement B<br>Underside of window sill to<br>top of window molding | Measurement C<br>Top of window molding<br>to ceiling | Measurement D<br>Floor to ceiling | Measurement E<br>Window width from outside<br>molding to outside molding |
|----------|---|---|--|-----------------------------------|--|
| Window 1 |   |   |  |                                   |  |
| Window 2 |   |   |  |                                   |  |
| Window 3 |   |   |  |                                   |  |
| Window 4 |   |   |  |                                   |  |

### FLOOR PLAN GRID

Draw your floor plan here. Remember that a great design hinges on precise measurements. Save time and money on your project by recruiting the professionals to measure your space before cabinetry and other room elements are purchased. Scale: 1/2" equals one foot, or each small square equals three inches.
